PROFILE

I lead the strategy behind how people find, use, and act on digital content, and how we measure whether it's working. At the University of Miami School of Law, I set the multi-year digital roadmap aligned to the Dean's priorities, and connect information architecture, analytics, SEO/AEO, and content governance into one practice. My work has raised site health from 48 to 89, grew prospective-student actions 15% across 44 LLM pages, and shaped the information architecture for the $2.5B Ever Brighter Campaign. Backed by a master's degree in Experience and Information Design and nearly a decade at UM, I bring deep institutional knowledge, established relationships across teams, and a record of turning data into decisions.

EDUCATION

M.S. in Experience and Information Design (XiD) — *2026*

University of Miami — GPA 3.8 | Outstanding Graduate Student Award

Centered on information architecture and digital design.

Google UX Design Specialization — *2024*

Google

Meta Front-End Developer Specialization — *2024*

Meta

B.S. in Communications — *2018*

Dallas Baptist University — GPA 3.8, Magna Cum Laude

EXPERIENCE

Director, Digital Strategy and User Experience — *University of Miami, School of Law* — *2024 – Present*

- Set the multi-year digital roadmap for the School of Law, aligned to the Dean's priorities, spanning site architecture, analytics, SEO/AEO, and content governance.
- Oversee the School of Law's web and digital analytics function. Built 19 Data Studio dashboards with automated reporting, giving admissions, marketing, writers, and social media teams self-service visibility into their own performance.
- Diagnosed a 35% decline in Google traffic to the MLS blog using GA4 and Search Console, isolating it from site-wide and seasonal trends while confirming leads rose 47%; rescoped the content agency's plan from 8 new posts a month to 2 data-prioritized rewrites.
- Restructured the Heckerling Institute site into a registration funnel informed by GA4 path analysis; since launch, visitors rose 26%, clicks on key links rose 89%, and site searches fell by a third.
- Standardized UTM naming conventions across 3 programs and added tracking to 6 previously untracked newsletters, enabling program- and campaign-level analysis for the first time.
- Leading a phased consolidation of four Law web properties (student, alumni, admissions, and Heckerling Institute) onto a single domain: content inventory, effort assessment, redirect strategy, and migration sequencing to preserve SEO authority and answer-engine (AEO) citation.
- Own technical health governance: raised law.miami.edu from an Ahrefs Health Score of 48 to 89 (errors down 82%, from 2,957 to 520) and admissions.law.miami.edu from 77 to a perfect 100.
- Led a content and IA revamp of 44 LLM program pages, lifting key events (prospective students taking action) 15.4% and sessions 9.4%, even during a slower admissions cycle.
- Leading AI search visibility strategy: implemented FAQ schema via Google Tag Manager on graduate program pages and set up AI visibility tracking with SEO tools.
- Manage a direct report and train departments across the school on CMS publishing, digital tools, and self-service reporting; launched monthly Web Office Hours setting content, SEO, and accessibility (WCAG/ADA) standards for web editors.

Senior Graphic Designer — *University of Miami, Development & Alumni Relations* — *2022 – 2024*

- Built and maintained reusable Enewsletter design templates in Salesforce and a shared design archive that eliminated redundant work and supported cross-training across the team.
- Designed interfaces and page structures for university websites and apps, translating stakeholder goals into wireframes, prototypes, and reusable component-based design systems.

Manager — *University of Miami, Development & Alumni Relations* *2018 – 2022*

- Served as UX researcher on the university's Ever Brighter capital campaign website: led stakeholder interviews and competitive benchmarking, then organized site information architecture around three donor-interest content themes for a campaign that raised $2.5B.
- Restructured a single, one-size-fits-all alumni site into a persona-driven information architecture with 4 distinct audience journeys (Alumni, Friends, Parents, Students) and an 8-category primary navigation, rebuilding page templates, CTAs, and URL structure in Cascade Server (Hannon Hill).
- Grew the alumni news site's pageviews 57% and unique pageviews 58%, lifted average time on site 12%, and raised organic search ranking 23% through site structure and content improvements.
- Built a microsite for 'Cane Biz and a monthly event-digest template that cut ad hoc event email volume; rolled out the Localist event platform across university sites and the Alumni App for personalized event feeds.
- Ran A/B-tested email campaigns lifting open rates and click-through rates up to 18%.

Graphic Web Designer — *Dallas Baptist University, Communications* *2017 – 2018*

- Produced marketing and web graphics and led design/production of print collateral including brochures, flyers, and posters.

Web Designer — *Kairos Design Studio* *2016 – 2017*

- Designed digital platform interfaces and implemented design systems to maintain brand consistency.

SKILLS

STRATEGY & LEADERSHIP Digital Roadmapping, Budget Requests, Vendor Evaluation & Management, Cross-Departmental Training

ANALYTICS & MEASUREMENT Google Analytics 4, Data Studio, Google Tag Manager, Google Search Console, UTM Governance, Microsoft Clarity, A/B Testing

SEO, AEO & AI SEARCH Ahrefs, Semrush, Screaming Frog, AI Search Visibility, Structured Data/Schema Markup

INFORMATION ARCHITECTURE Site Taxonomy, Sitemaps, Card Sorting & Tree Testing, Content Modeling, Navigation Design, URL Structure & Redirect Strategy, Governance Documentation

CMS & CONTENT OPS Cascade CMS, Drupal, WordPress, SharePoint, Elfsight, Qualtrics

USER RESEARCH UserTesting/UserZoom, Usability Testing, Stakeholder Interviews, Google Forms

UX/UI DESIGN Wireframing & Prototyping, Interaction & Visual Design, Responsive Design, Figma, Sketch, Adobe Creative Suite

ACCESSIBILITY WCAG / ADA Compliance Auditing

PROJECT & WORKFLOW Asana, Jira, Monday.com, FigJam

TECHNICAL & MARKETING HTML/CSS, Salesforce, Email Marketing Platforms

AWARDS
